AFFseries-2 Update Process

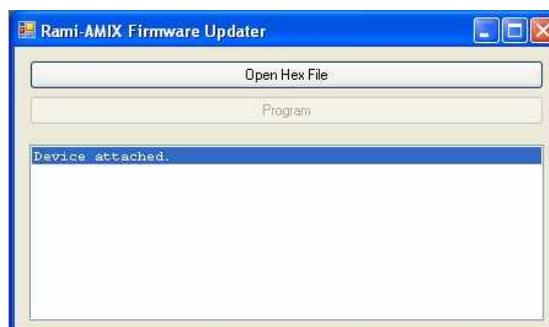

The AFFseries-2 updating is made in three steps :

- **Step 1** : Turn on the device with the USB already connected on the right side of it.

The USB port allows the updating of the firmware.

- **Step 2** : AFFseries-2 is recognized by your computer. Now, you must update the new firmware with the supplied software "Rami-AMIX Firmware Updater". To do this, launch the software and open the Hex file.

- **Step 3** : This last step allows to flash the AFFseries-2. For this, click on the button "Program" of the supplied software "Rami-AMIX Firmware Updater".
